HOME IS WHERE YOU PARK IT.

There's Sport Utility Trailers and then there's Talon ZX. Start with more than enough room to park two full size ATVs side by side. Roll up the beaver tailed loading ramp and hook into 8 flush mounted tie-down points, each good for 2500 lbs. ...you are VERY parked!

1. The extended, large-capacity ramp makes loading toys like quads and dirt bikes into the garage simple.
2. The optional 25-gallon fuel station allows you to gas up and go, leaving you more time to play hard.
3. The Talon ZX has plenty of sleeping space, including pull-down beds, a fold-away sofa and dinette and a separate bedroom.

AMERICA'S MOST LIVEABLE RVS.

"Liveable," to our customers, it could mean comfort. To our designers, it's a refined, ergonomic floorplan. For those who build them, they see value. The definition is most likely "all of the above"...and then some.

REFUEL FOR TOMMOROW.

Moving forward, you have all the comforts of home, from the basics to basically everything you can think of. A queen size bed in every ZX and master bedroom and dinette slide-outs in most ZX fifth wheels. Full kitchens, shower/tub surrounds and full DVD home theaters are all there for the asking.

1. An optional retractable screen wall pulls down in seconds, creating an extra room where you can relax and enjoy the outdoors.
2. The optional screen room significantly increases indoor space and bears up to 1,200 lbs.
3. The optional screen wall securely fastens with Velcro®, keeping the bugs out while letting the breeze in.

THE BEST GETS BETTER.

1. The Talon ZX sidewalls are constructed using a premium, long-lasting finish. 2. There's no need to worry about getting injured while going up or down the ramp, thanks to the durable, non-slip flooring and radius-cornered ramp. 3. Our cam-style ramp door latch with built-in lock opens easily and ensures that your toys will be safely stowed away until you're ready to rip it up.

EXERCISE YOUR OPTIONS.

How about a built-in fuel station or a backup air compressor. Maybe a power washer. Perhaps a solid wall between garage and living space. Or convert the garage into a screened patio room. Maybe just a 5500-watt Onan® generator ... capable of powering a very large outdoor party.

1. An optional wall separating the garage from the living space keeps the dirt out of the Talon's interior.
2. The Talon's exclusive no-slip ramp flooring makes trips up and down the ramp worry-free.
3. If you need all the sleeping space you can get, the Talon has an extra bunk above the garage space.

WHAT YOU NEED, WHERE YOU NEED IT.

1. Our tie-down rings rated for 2,500 pounds keep ATVs, motorcycles and other toys safely in place. 2. The extra wide 102-inch exterior of the Talon ZX allows you to easily load two full-size quads. 3. The garage work station is the perfect place to repair or maintain your toys. The wall shelf conveniently folds away, creating the maximum amount of space in the garage.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and ratings of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the roadways. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up, and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specification chart above.

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, LP gas, options, or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, LP gas, tools, other cargo, and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

We Back What We Build.

The Jayco Co-Pilot Warranty is a manufacturer's limited warranty. It doesn't come from your dealer and it's not an extended warranty! It comes from the people who build Jayco recreation vehicles to the people who buy them. Each Jayco is warranted to the original purchaser for twenty-four (24) months or twenty-four thousand (24,000) miles (mileage limitation applies to motorized products only), whichever occurs first, from the original date of purchase against defects in materials and workmanship. In addition, our limited warranty may be transferred one time within the warranty period. Go ahead and compare the Jayco warranty with other manufacturers' warranties. You'll find it's the best in the business!

For a copy of the limited warranty with full terms and conditions, ask your local Jayco dealer or visit our web site at www.jayco.com.

As a Jayco owner, you can be part of the Jayco Jafari International Travel Club. Ask your dealer about the Jafari "flight" in your area, write Jayco, or visit our web site.

Please Note: All information in this brochure is the latest available at the time of publication approval. Jayco reserves the right to make changes and to discontinue models without notice or obligation. Photos in this brochure may show optional equipment. RVs built for sale in Canada may differ to conform to Canadian codes.
