Luxury+Value

Designer 2007 Fifth Wheels

AMERICA'S MOST LIVEABLE RVs.

AMERICA'S MOST **LIVEABLE** RVs.

"Liveable" may mean what you see, what you feel or even what you trust about a Jayco. But one thing is for certain, "liveable" is the reason why more people across North America are making Jayco their choice in RVs.

Invisible Liveables

How can a luxury fifth wheel have a higher build quality, but a lower price? The simple answer is because it's a Jayco. For the details, you'll need x-ray vision.

1. The Carefree® Travel'r patio awning allows you to easily create a shaded outdoor living area that's perfect for relaxing and enjoying the breeze.
2. Jayco's dedicated production team includes Amish craftsmen who build with well-honed woodworking techniques passed down for generations.
3. Our rugged, double-stacked 12" tubular steel frame won't flex as much as the typical C-channel frame used on most RVs, so the Designer is more rigid and stable.
4. The Designer's floor is built on a 3" tall aluminum frame with joists welded on 16" centers, making the Designer both lighter to tow and more durable.
5. Our generously sized, triple retractable entrance step is positioned lower to the ground for safe, secure footing.
6. Expand your living space easily with the PowerDrive™ slideout, built with a strong 12" stacked tubular steel frame that allows for 6'3" of headroom.
7. FRP smooth fiberglass sidewalls provide a sleek, aerodynamic look.
8. 1/8" luan board adds strength to the sidewalls.
9. Bead-foam insulation in sidewalls helps keep the living space more comfortable (R-9).
10. Welded tubular-aluminum sidewall framing offers lightweight durability.
11. The seamless one-piece rubber roof shrugs off the hardest rains, reflects heat and reduces noise.
12. One-piece, TuffShell™ vacuum-bonded laminated roof is 5 inches thick.

2007 Designer Fifth Wheel by Jayco®

- 13. R-7 fiberglass blanket insulation adds to the interior comfort.
- 14. The welded aluminum floor frame is built to provide lasting stability.
- 15. Our PolyFlex™ one-piece underbelly covering is designed for continuous protection.
- 16. Strong $\frac{5}{8}$ " plywood flooring features tongue-and-groove construction to keep seams firmly attached.
- 17. Carpet pad included to maximize carpet comfort and durability.
- 18. Attractive, easy-care carpet makes the Designer feel like home.
- 19. Reflective foil insulation (R-15)
- 20. Underbelly "skin" of the gooseneck is made of aluminum.

- 21. The optional MOR/ryde® pin box system greatly reduces the back-and-forth chucking and jerking often associated with towing a fifth wheel.
- 22. The optional MOR/ryde® suspension system adds rubber shear springs that absorb damaging road shock, delivering smoother towing and better handling.
- 23. Jake Plate™ adjustable axle hanger plates allow you to adjust the height of your fifth wheel up to 2 inches for more level towing.

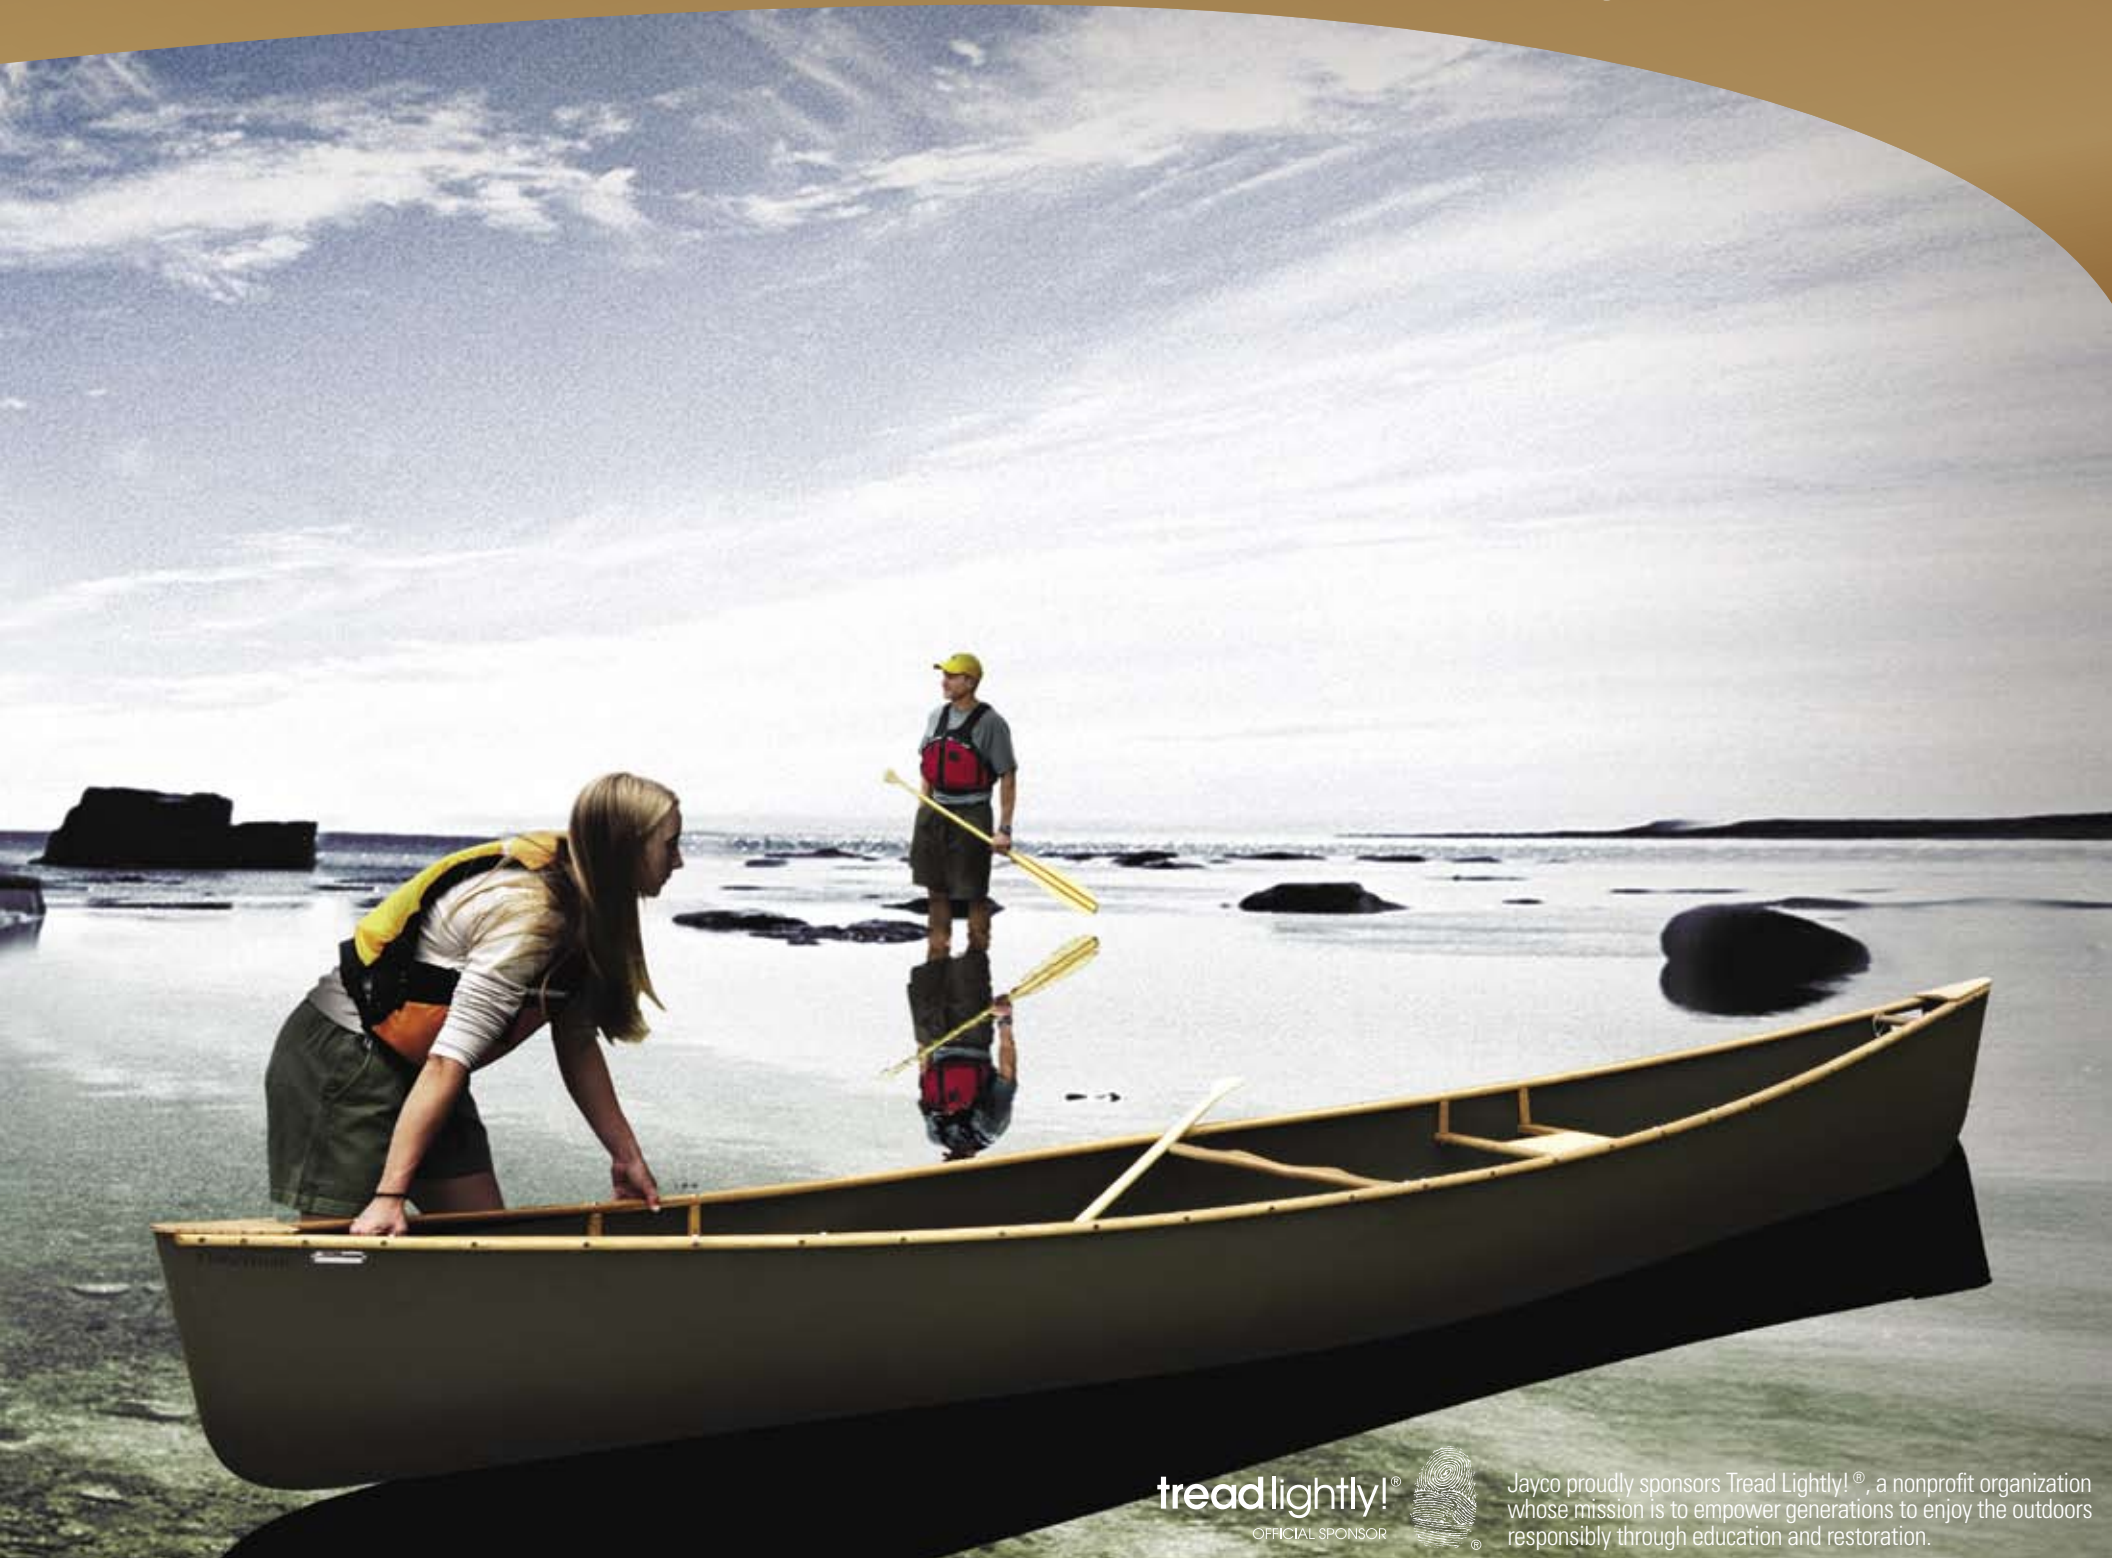

Incredible Liveables.

You may notice all the drawers slide on ball bearings or wonder how a Grandfather clock could ever be considered standard equipment.

With Designer, luxury doesn't cost you more.

2007 Designer Fifth Wheel by Jayco®

treadlightly!®
OFFICIAL SPONSOR

Jayco proudly sponsors Tread Lightly!®, a nonprofit organization whose mission is to empower generations to enjoy the outdoors responsibly through education and restoration.

Incomparable Liveables.

Fine fabrics, stylish window treatments and spacious floorplans conspire to make a week or a snowbird winter seem way too short.

Considerable Liveables.

Mortise and tenon joined cabinet doors, solid J-Stone® countertops and first-class appliances, guarantee any cook considers this kitchen uncompromising.

Desirable Liveables.

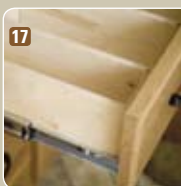

You're surrounded by the elegance you want – an optional bay window to frame the view, a unique entrance closet that doubles as a grandfather-style clock, and a freestanding dining set crafted in classic style.

1. A wall bracket keeps the 50-amp quick-connect power cord handy.
2. 110V power connects safely into the protected exterior receptacle.
3. The roomy 8 cu.ft. refrigerator features raised wood-paneled double doors.
4. The 16 gal. equivalent, gas/electric water heater has auto ignition.
5. Thanks to the swivel stand for the TV, you can enjoy an expanded viewing area.
6. Carefree® SideOut Kover II awnings provide additional weather protection above the slideouts and enhance the appearance of the exterior.
7. White-framed, radius-cornered, awning style windows have tinted safety glass.
8. The message center helps everyone stay in touch on busy days.
9. Bring the music outside with this optional exterior entertainment center.

10. This optional central vacuum system makes housekeeping hassle-free.
11. Ample storage is beautifully incorporated into the bedroom. The bed lifts on gas struts to reveal even more storage.
12. The interior command center conveniently controls all the generator and slideout functions from one spot.
13. Relax in the rocker recliners and enjoy the Designer's entertainment center with 24" TV, home theater system and DVD player. To enhance the experience, add the optional fireplace.
14. You'll appreciate the deluxe bathroom featuring a 36" fiberglass tub/shower with skylight and oil rubbed bronze fixtures.
15. The optional washer/dryer is located conveniently in the bedroom.
16. Large, lockable storage compartments keep bulky outdoor equipment close at hand but out of sight, and keep your living space clutter-free. The pass-through design permits easy access to the items from either side.
17. Cabinet drawers are built with ball bearing glides for easy movement.

Choosable Liveables.

Choose your wood finish and fabrics to make your Designer...yours!
Plus, add in your "must haves" with the Customer Value Package.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the roadways. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up, and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specification chart to the left.

Unloaded Vehicle Weight (UVW):

Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options, or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR):

GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC):

CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo, and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

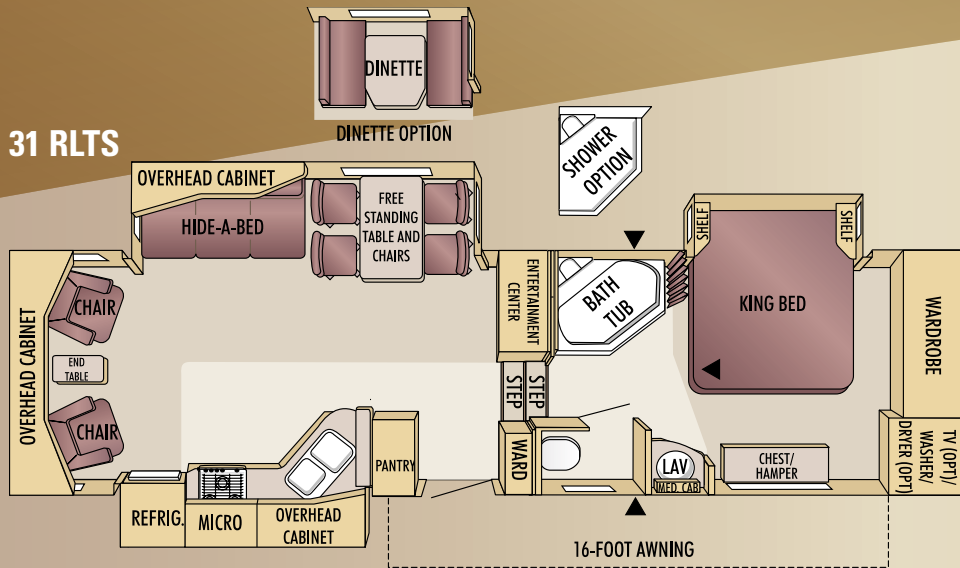

Hitch Weight (HW):

The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

Customer First Roadside Assistance

Travel worry-free in your Designer with Jayco's Customer First Roadside Assistance program, yours at no cost during your first year of ownership. This program is offered through Coach-Net®, the largest RV emergency road service in the country, and gives you immediate access to dependable roadside assistance and support services with a simple phone call.

- 24-hour toll-free emergency message service
- Toll-free nationwide service appointment assistance
- Free custom trip routing and full color map service
- Free dispatch of on-site mechanical service
- \$1,000 auto theft or hit-and run reward
- \$2,000 trip interruption reimbursement
- Free jump starts
- Free tire changes
- Free fuel delivery
- Free lockout service
- Free travelers checks

We Back What We Build.

The Jayco Co-Pilot Warranty is a manufacturer's limited warranty. It comes from the people who build Jayco recreation vehicles to the people who buy them. Each Jayco is warranted to the original purchaser for twenty-four (24) months or twenty-four thousand (24,000) miles (mileage limitation applies to motorized products only), whichever occurs first, from the original date of purchase against defects in materials and workmanship. In addition, our limited warranty may be transferred one time within the warranty period. Go ahead and compare the Jayco warranty with other manufacturers' warranties. You'll find it's the best in the business!

For a copy of the limited warranty with full terms and conditions, ask your local Jayco dealer or visit our website at www.jayco.com.
