2007 Lite Weight Toy Haulers by Jayco®

2007 OCTANE ZX Lite Weight Toy Haulers

AMERICA'S MOST LIVEABLE RVs.

AMERICA'S MOST **LIVEABLE** RVs.

"Liveable" may mean what you see, what you feel or even what you trust about a Jayco. But one thing is for certain, "liveable" is the reason why more people across North America are making Jayco their choice in RVs.

### Incredible Liveables.

Introducing a toy hauler that many 1/2 ton trucks or large SUVs can tow while giving up nothing in liveable comfort or features. Octane™ ZX... the only lite weight toy hauler good enough to be called a ZX.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the roadways. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up, and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specification chart above. **Unloaded Vehicle Weight (UUVW):** Sometimes referred to as "Dry Weight," UUVW means the typical weight of this trailer as built at the factory. The UUVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options, or dealer-installed accessories. **Gross Vehicle Weight Rating (GVWR):** GVWR means the maximum permissible weight of the trailer, including the UUVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UUVW and the CCC. **Cargo Carrying Capacity (CCC):** CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo, and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UUVW. The addition of options will decrease the CCC. **Hitch Weight (HW):** The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

## We Back What We Build.

The Jayco Co-Pilot Warranty is a manufacturer's limited warranty. It comes from the people who build Jayco recreation vehicles to the people who buy them. Each Jayco is warranted to the original purchaser for twenty-four (24) months or twenty-four thousand (24,000) miles (mileage limitation applies to motorized products only), whichever occurs first, from the original date of purchase against defects in materials and workmanship. In addition, our limited warranty may be transferred one time within the warranty period. Go ahead and compare the Jayco warranty with other manufacturers' warranties. You'll find it's the best in the business!

For a copy of the limited warranty with full terms and conditions, ask your local Jayco dealer or visit our web site at [www.jayco.com](http://www.jayco.com).

Jayco proudly sponsors Tread Lightly®, a nonprofit organization whose mission is to empower generations to enjoy the outdoors responsibly through education and restoration.

As a Jayco owner, you can be part of the Jayco Jafari International Travel Club. Ask your dealer about the Jafari "flight" in your area, write Jayco, or visit our website.
