COMFORTABLY COMPACT

Live large and tow small with the 2012 Jay Feather Select travel trailer. Hard-wall slideouts ensure you'll have plenty of space to spread out and relax, while an ultra-lite steel frame makes it 10-15% lighter than most conventional trailers, meaning it can be towed by most SUVs, crossovers and minivans.*

STANDARDS AND OPTIONS

STANDARD INTERIOR EQUIPMENT

- 22" LCD HDTV with 180-degree viewing angle
- Ball bearing drawer guides, 50 lb. capacity with full-drawer extension

A TRADITION OF LIVEABILITY

THE JAYCO STORY BEGAN IN 1968 when Jayco founder Lloyd Bontrager created an innovative, easy-to-use lifter system that led to a better fold-down camper. Loaded with more comforts and conveniences, Lloyd believed his camper would bring people closer together because it was more liveable. A devoted family man, Lloyd's passion extended to his business as well. In fact, our company's success stems from his insistence on treating everyone at Jayco as family — from our factory to our front office, our salespeople to our suppliers, and our customers to our community.

BLENDING OLD WORLD AMISH CRAFTSMANSHIP WITH INNOVATIVE TECHNOLOGY, Jayco is the nation's largest family-owned and operated RV manufacturer today. And while our product line has grown considerably over the years, every unit we build is still guided by Lloyd's vision and a humble desire to help make it easier for families to explore together and relax together. It's what separates us from other RV manufacturers. And it's what continues to make Jayco America's Most Liveable RVs.

AMERICA'S MOST **LIVEABLE** RVs.

Jayco proudly sponsors Tread Lightly!, a nonprofit organization whose mission is to empower generations to enjoy the outdoors responsibly through education and restoration.

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

From RV insurance to extended warranties, JayPlus has it covered. Ask your Jayco dealer about our exclusive JayPlus program today.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

As a Jayco owner, you can be part of the Jayco Jafari International Travel Club. Ask your dealer about the Jafari "flight" in your area, write Jayco or visit our website.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart inside.
