

TOY HAULERS

LOAD UP ON FUN

Jayco's 2016 Toy Haulers are whatever you want them to be. On a whim, the industry's best garage becomes an extra bedroom, a rocking living space or the ultimate bunkhouse. These luxury crossovers pack a serious punch—with impressive amenities, spacious floorplans and construction made to withstand even the roughest off-road conditions. It's the perfect excuse to play—just be prepared to share.

Three-time DSI Quality Circle Award winner

Dealers have awarded Jayco Toy Haulers the DSI Quality Circle Award three times in recent years—a testament to continuous product excellence and improvement. The award, based on a survey of hundreds of RV dealers in the U.S. and Canada, takes into account product quality, value, service/support and more.

OCTANE SUPER LITE AND OCTANE

Introducing the industry's most feature-packed toy haulers, with supercharged amenities that come standard. It's fun in the form of eight versatile floorplans!

OCTANE FLOORPLANS

OCTANE | T26Y OPTIONS: A, B

Ext. Length: 30' 10" Ext. Height: 147" Unloaded Wt. (lbs.): 6,845 Sleeps: 7-8

OCTANE | T30F OPTIONS: A, B

Ext. Length: TBD Ext. Height: TBD Unloaded Wt. (lbs.): TBD Sleeps: 7-8

OCTANE | T31B OPTIONS: A, B

Ext. Length: 33' 8" Ext. Height: 148" Unloaded Wt. (lbs.): 7,205 Sleeps: 7-8

OCTANE | T32C

Ext. Length: 35' 1" Ext. Height: 150" Unloaded Wt. (lbs.): 8,860 Sleeps: 6

OCTANE | T32E

Ext. Length: 35' 1" Ext. Height: 151" Unloaded Wt. (lbs.): 8,485 Sleeps: 6

OCTANE SUPER LITE FLOORPLANS

OCTANE SUPER LITE | 161 OPTIONS: A,

Ext. Length: 20' 8" Ext. Height: 135" Unloaded Wt. (lbs.): 4,245 Sleeps: 1-4

OCTANE SUPER LITE | 222 OPTIONS: A, B

Ext. Length: 26' 5" Ext. Height: 134" Unloaded Wt. (lbs.): 5,015 Sleeps: 3-6

OCTANE SUPER LITE | 273 OPTIONS: A, B

Ext. Length: 31' 0" Ext. Height: 143" Unloaded Wt. (lbs.): 6,170 Sleeps: 3-6

OPTIONS:

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart on the next page.

OCTANE / OCTANE SUPER LITE ADDED FEATURES

SEISMIC / SEISMIC WAVE ADDED FEATURES

LET'S JAYCO—AND LEAVE OUR WORRIES BEHIND.

We know that your family fun rides on our commitment to quality. So we go the extra mile to make products that last and stand behind them longer than anyone in the business.

- 1. Vacuum-bonded walls and fiberglass exteriors for better protection from the elements (n/a on Octane Super Lite)
- 2. Magnum Truss Roof System withstands 4,500 pounds— 50 percent more than other roofs
- 3. Welded aluminum frame for a durable, lightweight structure (n/a on Octane Super Lite)
- 4. 2-inch, vacuum-bonded and insulated garage floors aren't found on most competing toy haulers, and deliver added durability for your heavy toys
- 5. D-rings rated for 2,500 pounds are mounted through the vacuum-bonded floor and bolted to a steel plate attached to the frame; some manufacturers don't add this extra reinforcement

SEISMIC EXCLUSIVE

- 6. Double layer of fiberglass insulation behind the front cap, plus Flexfoil® and fiberglass insulation in the floors to provide extra warmth where it's needed most-in the bedroom, bathroom and living rooms
- 7. Aerodynamic front cap withstands the rigors of the road with infused paint and gel coating, plus 1/4-inch plywood bracing for additional support—not typically found on competing fifth wheels

JAYCO'S ROOF **VS** OTHER ROOFS

4,500 POUNDS ON A JAYCO ROOF VS. OTHER ROOFS

THE MAGNUM TRUSS ROOF SYSTEM 50 percent stronger

Extend your camping season with the Jayco Climate Shield.

It protects against extreme heat and extreme freezing—even in temperatures as high as 100 degrees or as low as zero degrees (Fahrenheit).*

*Unit was tested in zero degrees F and 100 degrees F weather over an extended period of time in a controlled environment and all functions of the coach were fully operational. Testing was done in a completely controlled environment: therefore, temperatures during testing may not represent actual temperatures in nature, and cannot account for elements such as wind or moisture. In actual use, unit may not perform as well. Supplier of cooling components does not guarantee anything better than 20 degrees difference from ambient temperature. In addition outside components are subject to freezing and require steps to properly insulate. Jayco's warranty does not cover damage caused by freezing. To learn more about Climate Shield and testing done by Jayco, visit www.jayco.com.

WE START WITH ONE OF THE INDUSTRY'S Strongest foundations

Many competitors modify or weld stock frames, which can weaken the integrity of your foundation. Jayco's custom-manufactured frames offer higher strength and durability.

Full-width outriggers: We build on full-width outriggers: We build on full-width outriggers that are spaced 4-6 feet apart tys. 8 feet) to better support the weight of the wall.

Seismic fifth wheel frame: The frame over the truck bed is built on a superior 2-inch x 6-inch tube perimeter structure to better support the bedroom sidewalls. Competing fifth wheels have a smaller frame; these manufacturers add a sidewall support seam to compensate for expansion joints.

I-class cambered structural steel I-beams:

Jayon uses a unique molded, one-piece design to prevent the unif from twisting competing three-piece I-beams can warp over time at the welded seams.
